

VZ-300 Colour Computer

Your first computer? You can't go past the VZ-300. A full colour, full function personal computer for under \$100! The VZ-300 is one of Australia's most popular home computers. Compare the features... compare the power... compare the software. Everything the first-time computer user needs — or will need — is right there. And the world's most-used computer language — Microsoft BASIC — is built into the VZ-300. If you (or the kids!) want to get into the exciting world of personal computers, there's no better way to do it than with a VZ-300. Cat X-7300

Shipping weight: 2.4kg
Shipping size: 160 x 230 x 120mm

\$99

Memory Expansion

Plug-in 16K module takes your VZ-300's memory from standard 16K to a maximum 34K. Nothing to wire — it just slots straight into the VZ's expansion slot. Cat X-7302

\$79⁹⁵
